JANUARY 2022 NEWSLETTER

TWI CERTIFICATION LTD NEWSLETTER

JANUARY 2022

Welcome to this second edition of the TWI Certification Ltd (TWI CL) newsletter!

We hope that 2022 finds you in good health and that the year so far is progressing well for your company or organisation.

In this second edition of the TWI CL newsletter you will find a range of articles, as well as a new video and the first episode in our new podcast series, from both the Personal Certification Group and the Company Certification Group, all intended to keep you informed of our recent activities and initiatives.

Read on to find out about: what the UK Pressure Equipment (Safety) Regulation 2016 and the EU Pressure Equipment Directive (2014/68/EU) mean for CSWIP candidates since

the UK's withdrawal from the EU; Company Certification Group's new partnership with Inspekta for EN 1090-1 FPC Certification; case study insights from Company Certification Group clients Stephenson Engineering and Bridmet; funded support for businesses in the Tees Valley area to assist with preparing their company to undertake certification in compliance with British Standards such as ISO 3834 or EN 1090; a profile of Senior Company Certification Officer Jamie Fane; and more.

Lastly, we look forward to continuing to assist all our certificate holders and clients with their certification requirements in 2022.

Kind regards,

Clare McGrath,
Head of Personnel Certification

Emma Freckingham,
Head of Company Certification
