

TWI CERTIFICATION LTD

OCTOBER 2021 NEWSLETTER

TWI CERTIFICATION LTD NEWSLETTER

OCTOBER 2021

Welcome to the inaugural edition of the TWI Certification Ltd (TWI CL) newsletter!

TWI CL, is a wholly owned subsidiary of The Welding Institute and is accredited by UKAS to international standards, providing certification for both people (ISO/IEC 17024) and organisations: for products, processes and services (ISO/IEC 17065).

As our second year with COVID draws to a close, we take this opportunity to look back at what we have been able to achieve this year, and forwards to what the new year may bring. With a rich mix of certification news including the importance of authentic CSWIP certification for individual holders, a new partnership agreement between German Certification Body DVS ZERT GmbH and TWI CL, an in-depth look at the Certification Scheme for Welder

Training Organisations (CSWTO), TWI CL's appointment as a Member to the International Committee for Non-Destructive Testing (ICNDT) and the latest COVID-19 policy update for CSWIP and BGAS-CSWIP certificate holders, this is sure to be an exciting edition and start to our newsletter series.

In between newsletters, you can keep up-to-date with TWI CL on a more regular basis by following our social media pages, details of which are within.

Finally, we would like to thank all our certificate holders, clients, volunteers and staff, for your patience and understanding as we navigated another testing year. We look forward to speaking, working (and seeing!)

many of you in 2022, and would like to wish you all the very best in health, happiness and success in the future.

Knd regards,

Clare McGrath,
Head of Personnel Certification
Emma Freckingham,
Head of Company Certification
